

# New Clean Vehicle Tax Credit Checklist

The Inflation Reduction Act includes a tax credit for qualifying new clean vehicles – and it can result in major savings. If you’ve been in the market for a vehicle, now is the perfect time to take advantage of these major savings opportunities for new clean vehicles. Visit [fuelconomy.gov/newtaxcredit](https://fuelconomy.gov/newtaxcredit) to learn more and see eligible models.

See requirements below\*

## How to qualify for the New Clean Vehicle Tax Credit

Purchasing a new clean vehicle		Check all that apply
<b>Taxpayer Eligibility</b>		
<b>Taxpayer income and status</b>	<p>The taxpayer’s modified adjusted gross income for either the current or prior year must be:</p> <ul style="list-style-type: none"> <li>➤ \$300,000 or less for joint filers and surviving spouses,</li> <li>➤ \$225,000 or less for head of household filers, or</li> <li>➤ \$150,000 or less for other filers.</li> </ul> <p><i>Unsure if you qualify? Consult your tax advisor.</i></p>	
<b>Vehicle Eligibility</b>		
<b>Vehicle type</b>	The vehicle is an electric vehicle, plug-in hybrid electric vehicle, or fuel cell vehicle.	
<b>Vehicle Manufacturer’s Suggested Retail Price (MSRP) including options</b>	The MSRP of a pickup truck, van or SUV must be \$80,000 or less; for all other passenger vehicles, \$55,000 or less. See the current list of eligible models and applicable MSRP caps on <a href="https://FuelEconomy.gov">FuelEconomy.gov</a> and details about optional equipment on <a href="https://IRS.gov">IRS.gov</a> .	
<b>Vehicle final assembly location</b>	Final assembly must have occurred in North America. Confirm this by entering the make, model, and year of a vehicle on <a href="https://FuelEconomy.gov">FuelEconomy.gov</a> or ask your dealer for the Vehicle Identification Number (VIN) of the specific vehicle you have in mind and enter it at the Department of Energy’s <a href="#">VIN lookup tool</a> .	
<b>Critical mineral and battery requirements</b>	<p>For vehicles placed in service on or after April 18, 2023, the vehicle must meet the critical minerals requirement (\$3,750 credit).</p> <p>For vehicles placed in service on or after April 18, 2023, the vehicle must meet the critical battery requirement (\$3,750 credit). Visit <a href="https://FuelEconomy.gov">FuelEconomy.gov</a> to determine credit amount</p>	
<b>Time of sale report (also known as seller report)</b>	Dealer provides buyer a time of sale report (also called a seller report), which will have information such as dealer name, address, VIN, make, model, placed in service date and maximum credit.	

If you checked **ALL** of the above, you may qualify for a full credit of \$7,500 or a partial credit of \$3,750, based on the vehicle’s battery and critical mineral requirements. Get more details on the new clean vehicle credits and [check a vehicle’s eligibility on FuelEconomy.gov](#).

\*Eligible new clean vehicles must weigh less than 14,000 pounds, have at least a 7 kilowatt hours battery, and must have been placed into service starting January 1, 2023, or later. See information on [credits for New Clean Vehicles Purchased in 2023 or After](#) or [credits for New Electric Vehicles Purchased in 2022 or Before](#) on [IRS.gov](https://IRS.gov). You must buy the vehicle for your own use, not for resale, and use it primarily in the U.S.
